

## Structural Steel Welder

We are now actively seeking a dedicated, experienced Structural Steel Welder who shares our commitment to excellence, to join our team on the twilight shift.

The role would suit someone with experience in a similar role. A weld test will be required at the interview stage.

### Responsibilities:

- Fabricate steel structural fabrications to a high standard and accuracy
- Fabricating in various steel grades
- Marking out and drilling materials from drawings
- Read engineering drawings and sketches

### Essential Experience:

- Have experience of welding structural steelwork
- Be able to work on their own and as part of a team
- Comply with health and safety procedures
- Be flexible if necessary to carry out any other tasks within the factory
