

Technical Sales & Estimating Engineer

We are looking to recruit an enthusiastic Technical Sales Estimating Engineer. The successful candidate will receive full training and support.

The role is suitable for someone with prior experience in a similar role, a recent graduate, or someone with a background in engineering apprenticeship or a design environment.

Responsibilities:

- Assist in building good relationships with our clients
- Produce technical quotations and estimates
- Liaise with the project team, client, architect, and structural engineers to gather relevant information
- Communicate with clients to gain feedback on estimates
- Attend both internal and external meetings
- Maintain files and records

Essential Experience:

- Ability to read and work with engineering drawings essential
- Experience in fabrication/engineering/design environment
- A good level of computer literacy, especially in Excel
